

Attention artists!

The people at the NISSAN car company, who normally spend their time making cars at their giant factory in Sunderland, are currently producing 10,000 disposable overalls every day for our **NHS** Doctors and nurses.

In each pack of aprons, Nissan wish to show support for all the great work the **NHS** are doing so we can say thanks and make them happy.

BUT THEY NEED OUR HELP!

They want to include in every box of aprons a picture drawn by the children who are working hard at home.

If you would like your picture to go in a box of aprons and really help brighten the day of our **NHS** heroes, you can draw it and send a photograph to:

Ian.Green@Nissan-NMUK.co.uk

Don't forget to add your name, age, school name and town so the **NHS** staff know who sent it.
