

Sentence Structure— Attached with this weeks planning are some pictures that need captions, remember to write what you see.

Challenge—now make these captions into simple sentences remembering to use capital letters and full stops.

Spelling—This weeks challenge is to recycle the letters in 'reduce, reuse and recycle' to make as many words as you can. See how many words you can make using only these letters. What is the longest word you can make ?

P.E—Visit outoftheark.co.uk for some fantastic songs to dance and sing along to together with daily exercises, the children in school are also learning the songs.

Art/Craft—There are so many things that we throw away because they are broken or just 'rubbish' such as newspapers, food packaging etc. Your challenge is to upcycle something that you would normally put in the bin. There are some great ideas to make something fantastic things out of 'a load of old rubbish!' Visit <https://handsonaswegrow.com/34-recyclables-to-upcycle-for-the-kids/> there are lots of ideas to choose from or just think of your own amazing upcycling ideas. There are also some great videos to watch on YouTube:

Key Stage 2 Language Unit Weekly Home Learning 18.05.20-22.05.20

Here are the activities for this week. Please continue to send your work and photos to:

ks2slu@overfieldsprimary.org.uk

There are also lots of fantastic daily activities to try: <https://www.bbc.co.uk/bitesize/dailylessons>

Reading— There are lots of fantastic stories about recycling and taking care of our planet. These are just a few to choose from, you can find retellings of these stories on YouTube.

Writing— Write a set of step by step instructions of how to make your 'upcycled' idea. You need to structure your ideas using a title, list what you need, include First, Next, Then and Finally to sequence your short sentences. Try to include a labelled drawing of your upcycled idea. Send them to me then I can have a go at making it!

Maths—Keep learning your multiplication tables. This week I would like you to recycle numbers to make 20 number sentences where the answer is always 20 You can use addition, subtraction and multiplication but the answer always has to be 20!

e.g. $12+8=20$ $25-5=20$ $10\times 2=20$

Remember there are lots of great activities on
