

This week's story is about a boy called Max who has a key to a very special box - the Night Box. When it is time for the Night to begin, Max opens the box and lets Night out and Day goes back inside. Then, in the morning, Night goes back into the box and Day comes out again. It is called **The Night Box** and the author is **Louise Greig**

Ask everyone in your house to guess how many things you have that use electricity to work. Now go to each room and make a list of them. Who had the closest guess? Can you draw a big outline of a house and draw them all on? Now ask an adult how many devices need to be left on all of the time and why. Then ask which things can be switched off.

**Draw it, write it and send it to me!**
