

## Nursery learning at home - Week 9

I hope you're enjoying these activities.  
Please share all your learning in emails.

Reading - Read, read, read!

Keep on sharing stories daily.

Here's a story about the very hungry caterpillar.

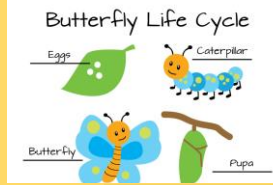

<https://www.youtube.com/watch?v=75NOK-Sm1YY>

Can you remember the fruits he ate on each day?

What's your favourite fruit?

Keep moving! – Sing and act the story of the hungry caterpillar

<https://www.youtube.com/watch?v=mbFkxdZWLQk>

Fine motor activities – get your fingers moving!

Tell the life cycle of a butterfly using your hands...

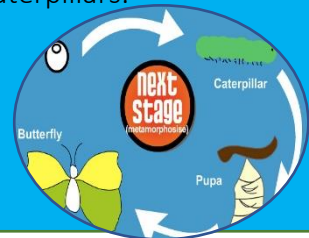

One hand makes a leaf and make an egg with the other.

Pop! Now make your fingers move like caterpillars.

Make the caterpillars munch the leaves.

Next, spin a cocoon.

Flap them like a butterfly!

On your walk/in your garden...

Look out for butterflies. If you find any, have a close look...they are symmetrical...same on each side.

How many did you see?

Get creative –

**Butterfly Symmetry Paintings**

**MATERIALS:** Paper, Scissors, paint, Small pots, Spoons

**Step 1: Cut paper butterflies** First, you'll want to cut your paper into a symmetrical butterfly shape. Fold your paper in half, then use the scissors to cut out a half butterfly, with the body along the fold. Open.

**Step 2: Prepare paint** Pour small amounts of paint into pots and add a spoon to each pot.

**Step 3: Add Paint to Paper** Use the spoon to add drops of paint to one side of your butterfly paper.

**Step 4: Fold Paper** Fold the other half of the paper over the paint drops to create a paint sandwich. Press and rub with your hands.

**Step 5: Open the Butterfly Painting** Finally, open the paper to reveal your symmetrical

butterfly painting!
